

Winnipeg *Around the World in 9 Days*

Where the World is Won

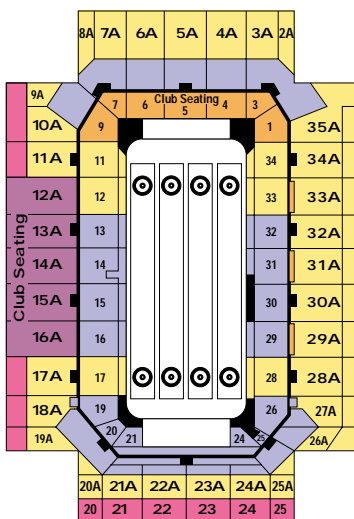

In April, 2003 the competing nations of the World Curling Federation will once again travel across the globe to the centre of the curling universe - Winnipeg - a city that launched world curling to new levels in 1991.

For 9 days and nights, the best men's and women's teams will renew an annual rivalry known as the Ford World Curling Championships.

And you can be there for every exciting moment of all 26 draws - all topped off with the magic of worldly culture, social activity and international exchange - trademarks of this championship that make it one of the most treasured in the entire world of sport.
